RESURGENCE

Ağaç çevresini saran şeyi de büyütür

A tree also grows what surrounds it

Rainer Maria Rilke

YENİDEN
RESURGENCE

The International Mail Art Exhibition, organized by the Department of Visual Arts at the Faculty of Art and Design, Eskişehir Osmangazi University, will be held for the first time this year.

"A tree also grows what surrounds it." Inspired by a poem of Rilke, this year's theme has been designated as *Resurgence*. The exhibition aims to draw attention to the devastation caused by forest fires in Turkey and to make the resurgence power of nature visible through art. Titled *Resurgence*, the exhibition seeks to unite artistic contributions from various regions through letters, stamps, and postcards, thereby translating ecological consciousness into a collective form of artistic expression.

"Art is the witness of its age." Through its ability to render social, cultural, and ecological events visible, art is not merely a form of individual expression, but also a vehicle for collective memory and historical witnessing. In this context, artistic production serves as a vital means of raising awareness about ecological crises and of constructing a shared memory to be passed on to future generations.

The mail art exhibition titled *Resurgence*, featuring artworks from diverse regions around the world, will serve as an interdisciplinary and intercultural bridge at the Faculty of Art and Design, Eskişehir Osmangazi University. The submitted artworks will be exhibited in the Exhibition Hall of the Faculty of Art and Design and will also be published through an online catalog. All artists are invited to participate in the 1st International Mail Art Exhibition at Esogü.
